IRF, [REDACTED] continues to spend a couple of hours  
25X1A a day in the laboratory preparing a final report on an airport  
25X1A observation. [REDACTED] Africa, who is to be assigned as an  
25X1A intelligence assistant [REDACTED] and who gave exceptional  
promise as a student, was required [REDACTED] 19 April; 25X1A  
the shift in plan cut short her training before it was completed.  
It is to be hoped that she will be able to find time, as she plans  
to do, to complete IRF before she goes overseas. As far as she went  
in the course, she proved to be an excellent student.

25X1A (b) Three students, [REDACTED] 25X1A  
[REDACTED] have been registered for  
tutorial training in IRF during May and June.

(c) As of 20 April, four students were registered for the 30 April-  
11 May, half-day course in IRF. Since the group will evidently be  
small and since some tutorial students will overlap, all individual  
students will be classified as tutorial.
